The Fake HM Government Email Scam

Action Fraud have received reports of a scam email alleging to be from HM Government asking for donations to the NHS during the COVID-19 outbreak.

At the end of the email the message requests donations be made via bank transfer.

Transferring money by bank transfer is a common technique used by criminals to divert payment methods from official websites.

If you receive one of these messages, do not click on web links or attachments and never respond to messages that ask you for personal or financial information ✋

If you need to verify a message, do so via your own trusted method 👆
